"It is an honor, a high honor, to be Members of the First Legislature of the Province of Alberta. We are today entering upon the task of laying the foundations of empire in this new land. We will be called upon to solve for this great Province of Alberta many new and difficult problems. It is expected that we will prove ourselves equal to the task of their solution. It is expected that we will enact and carry into effect measures that will be to the lasting advantage of the people of this province, and for their welfare. On the other hand many matters will come before us for determination in which the path has not been blazed out for us. It is right, it is proper that we should follow the good traditions, the good traditions, the good precedents of the Legislatures of the old Provinces of Canada, the House of Commons of our Dominion, and the House of Commons of the motherland, the Mother of Parliaments under Constitutional, under responsible government."

Alexander Rutherford
1st Premier of Alberta
